Introduction

Centre for Learning & Development (CLD)

I am pleased to present the 2024 Prospectus which details the learning and development opportunities available to staff in TUH, CHI at Tallaght and colleagues in HSE Dublin and Midlands Region.

Over the last year the Centre for Learning & Development (CLD) has continued to build on our expertise in providing high quality learning and development opportunities in the digital space by developing in house TUH eLearning content. A new High Fidelity Simulation Centre, funded by the Adelaide Health Foundation, is planned for the end of this year. The CareerDevelopment@TUH Hub is available on HSeLanD for three of the six categories of TUH staff and work is underway on the remainder. The aim of the Hub is to guide and support all TUH staff in their career development. The TUH Leadership Academy continued to expand with the launch of the new TUH ATHENA Mentoring programme last year.

This year's Prospectus continues to support the implementation of the TUH Learning and Development Strategy 2023-2025. The Strategy identifies six key priority areas which are aligned with the TUH Human Resources Strategy and other key strategies.

The Library and Information Services are open to all staff and students of TUH. The Library provides access to world-class online resources and books; expert guidance with search skills for systematic review; a bright space to read and study and an out-of-hours study room. The recent appointment of a Clinical Librarian will further enhance the expertise available to staff.

Please do ensure that this Prospectus is shared in your department and your teams. A digital version is also available on the TUH Website and the CLD Intranet page. This will be updated throughout the year to reflect any changes in relation to the Continuing Education Units (CEUs) or Continuing Professional Development (CPD) points or hours applied to TUH programmes. Once delivery dates are confirmed, education and training programmes dates are opened for enrolment on the TUH Learning Station on www.hseland.ie

Feel free to contact me regarding any Learning & Development enquiry you may have and also with your comments and feedback regarding the Prospectus.

Kind regards

Shauna

Pillars of Learning

No building can be supported by only one pillar, it requires a foundation and a number of supports to make the building structurally sound. Similarly, learning and development in Tallaght University Hospital requires a number of pillars to ensure that its foundation is responsive to the developmental needs of staff. The learning and development programmes in this prospectus are categorised into four pillars which provide a scaffold of longitudinal learning.

1. **Patients**

The programmes within this pillar are clinically based. They are designed to enhance the knowledge and skills of staff in the delivery of care to our patients and families. Some are mandatory or essential – but many are here to enrich and support your working life.

2. **People**

The programmes within this pillar are designed to enhance communication, collaborative working and the development of leadership skills. Tallaght University Hospital strives to be the employer of choice, developing and supporting a culturally diverse, highly competent, motivated and productive workforce. The Centre for Learning and Development, generously supported by the Meath Foundation, plays a central role in maintaining and growing leadership potential, facilitating leadership career pathways and enabling staff to reach their potential.

3. **Process**

The programmes within this pillar assist staff to provide quality health care that can be defined, measured and published. Programmes here provide the fundamental principles and tools in problem solving, analytical skills and systems thinking to enable staff to improve their own processes leading to a culture of safety and continuous quality improvement.

4. **Professional**

This programmes within this pillar enable staff to continue on their professional career journey in the hospital. Some are mandatory or essential – but many are here to enrich and support your working life.

TUH Learning Station

What is 'TUH Learning Station' and how to use it.

TUH Learning Station is Tallaght University Hospital's dedicated online Learning & Development Platform. It is the 'One stop online platform' for all TUH employee's Learning & Development requirements.

The system is hosted on www.HSeLanD.ie and allows TUH and CHI at Tallaght employees to:

- Self-enrol on classroom programmes in the Centre for Learning & Development & TUH.
- Continue to undertake HSeLanD eLearning along with TUH's own eLearning programmes.
- Search for education & learning opportunities in TUH and HSeLanD.
- Keep informed of Learning & Development updates/opportunities relating to both TUH & nationally through the "News" section.

The vast majority of programmes included in this prospectus are hosted on TUH Learning Station, from which TUH employees can enrol on classroom and online programmes.

How to register for TUH Learning Station

You will fall into one of the two following categories.

1. Have used HSeLanD before.
2. Have never registered on HSeLanD before.

Please follow the steps for the category you fall under.

1. Have used HSeLanD before:

Log on to www.hseland.ie (fig 1)

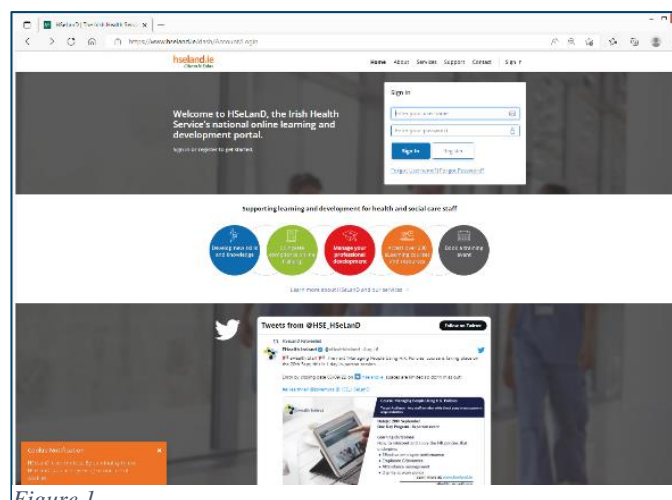

Figure 1

When you log onto HSeLand, you may need to update your profile (fig 2)

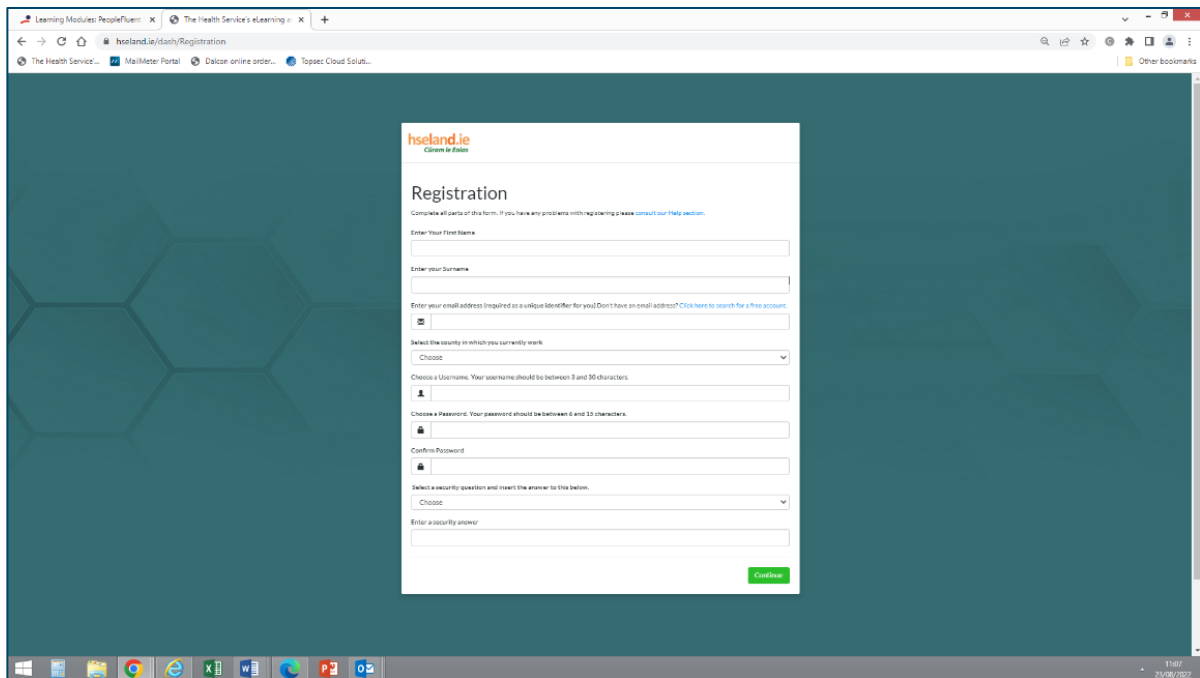

Figure 2

To verify that you are a TUH/CHI at Tallaght employee you will need to provide your employee personnel number, as well as your date of birth.

After this step you are registered and ready to access the Learning Station.

2. Have never registered on HSeLand before

If it is your first time registering as a new employee of TUH, and do not yet have a personnel number to provide, you will be provided with eight weeks access to the system. You must update your details with your personnel number when issued by Human Resources Department.

If you have a personnel number, please follow the 'create an account' instructions and the system will recognise you as a TUH/CHI at Tallaght employee.

Using the Learning Station

Once you are successfully logged into the Learning Station, you can begin searching for and enrolling for all classroom and e-learning courses.

On the welcome screen (Fig 3) you will see the green search box where you can search for any course you wish to enrol in.

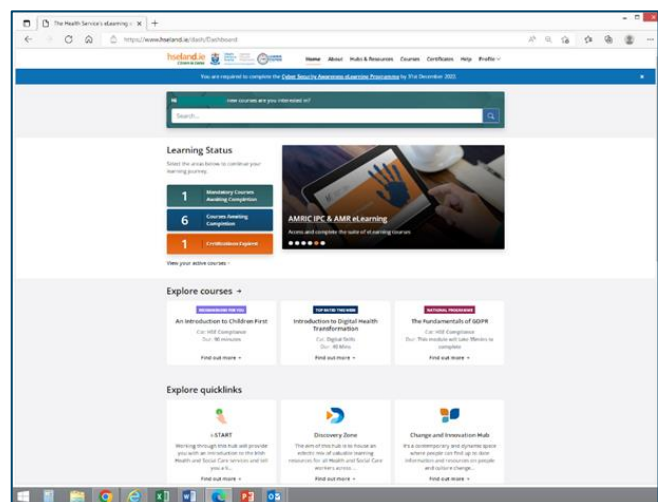

Figure 3

If you search here and find a course you are looking for you can select it from the list provided (Fig 4). It may be useful to enter the Module ID: in the search box if there are a lot of programmes with a similar title.

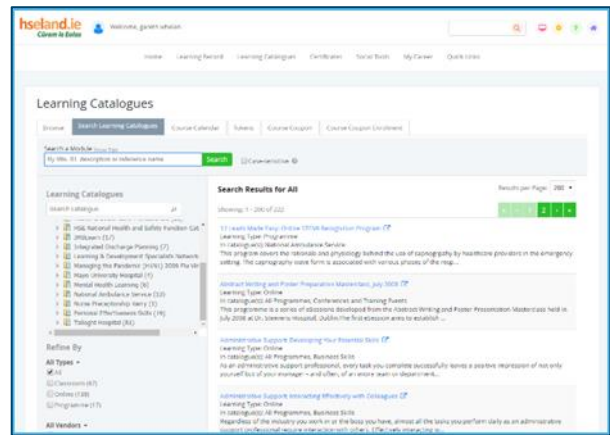

Figure 4

Once you have clicked on a course, a pop up box will appear (Fig 5), you can then choose to enrol on dates that are available by clicking the relevant 'enrol' button under such date for the course.

You will then receive email confirmation that you are enrolled.

Please note:

Manager approval is required to ensure release is possible for all courses you enrol on.

Assistance email:
learningstation@tuh.ie

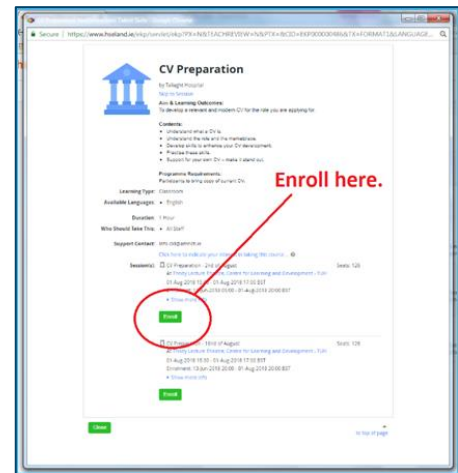

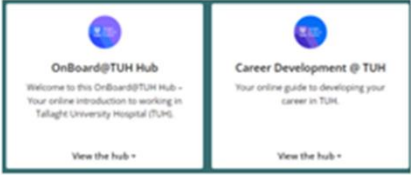

Figure 5

Centre for Learning & Development (CLD) Communications Strategy

The CLD recognises the importance of having a clear Communications Strategy. The purpose of CLD communications is to create a clear path for all our programme information, updates and news for Hospital Staff. The CLD currently communicates our programme information as follows:

 <p>Email alerts to staff regarding mandatory training / central email address for specific queries: learningstation@tuh.ie</p>	 <p>TUH Hubs on HSEland</p>	
 <p>Hospital Newsletter Screen-saver messages Leaflets & Flyers</p>	 <p>CLD Intranet page – incl programme information, contact details and link to SharePoint Leave & Funding Application Form</p>	
<p>Social Media</p>  <p>@CLDTallaghtHosp TUH Facebook page TUH LinkedIn page</p>	 <p>TUH Staff App</p>	<p>Central email address for easy processing of enquiries: info.cld@tuh.ie Regularly email programme information to managers & staff regarding relevant programmes</p> 
 <p>Annual Learning and Development Prospectus</p>	 <p>Visual Display Unit (located in CLD Reception Area)</p>	 <p>Hospital Internet Page: TUH.ie</p>

Study Leave/Funding Application and Reimbursement

Introduction

The following are instructions on the application for Learning & Development leave and/or funding and for the processing of applications by managers and portfolio directors.

Please note: ICT are not involved in the approval process and will not be able to assist with any queries regarding approved or rejected applications. Any queries should be directed to the relevant manager.

Please ensure that you have read the Learning & Development Leave & Funding Policy HR-POL-29, Learning & Development Funding SOP HR-PRO-20 and the Foreign & Domestic Travel & Subsistence for Staff of Tallaght University Hospital Policy Document Number: ADM-POL-31 which are available on Q-Pulse. Applications for funding and/or study leave will only be considered from staff who have completed all of their mandatory education and training.

Applying for Training Funding/Leave

1. To apply for developmental leave and/or funding, (please use Internet Explorer) go to TUH Intranet page. → Popular Links → Staff Forms (Figure 1) → 'S' Study Leave & Funding (Figure 2 & 3) **or** click on the link below:

<http://intranet.amnch.ie/tuheforms/eforms/Pages/StudyLeaveAndFunding.aspx>

Figure 1

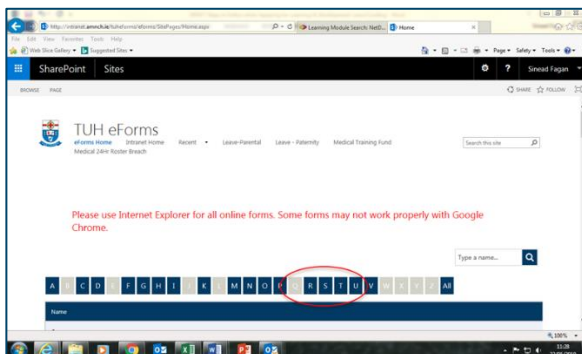

Figure 2 & 3

2. Click on the 'New Form' button (circled below - Figure 4).

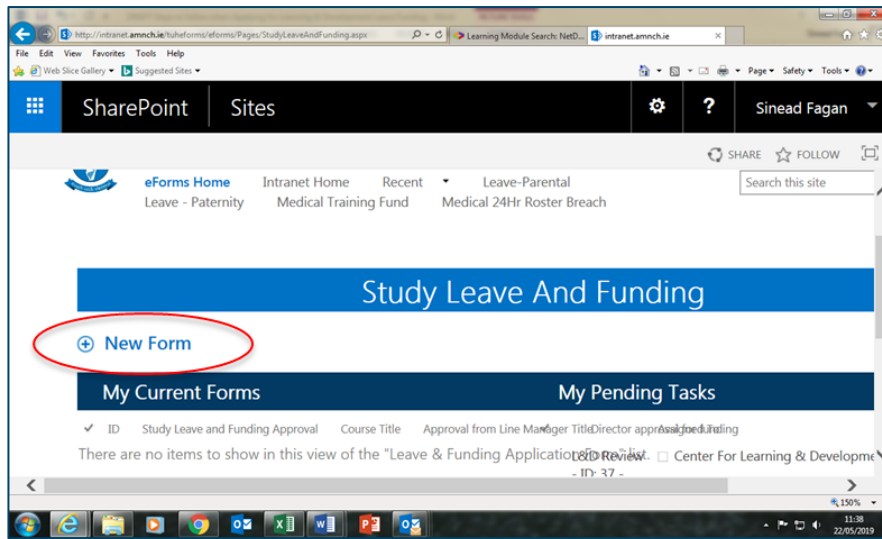

Figure 4

3. Please enter all the required information (Figure 5)

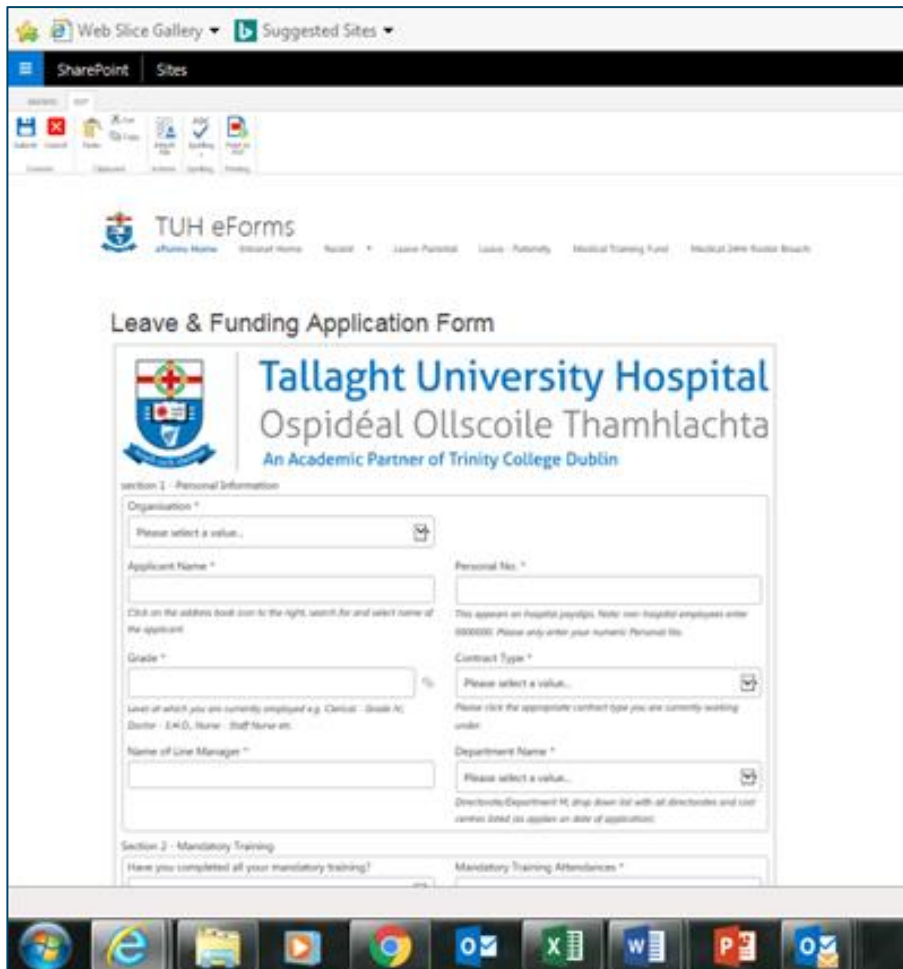

Figure 5

4. When you are happy with the content of the form click 'Submit' (Figure 6)

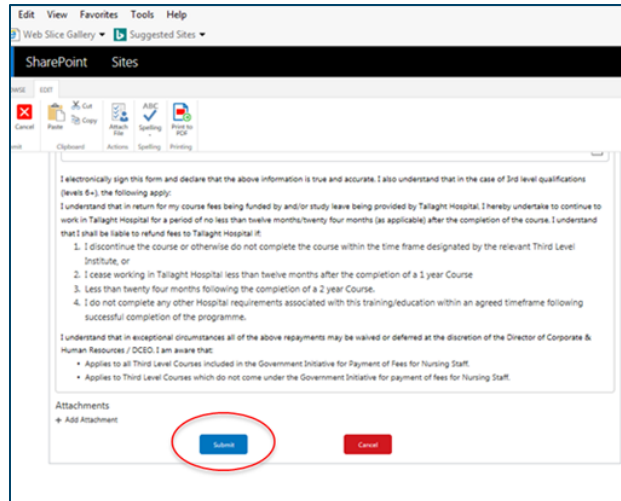

Figure 6

5. Once you have clicked 'Submit' the Line Manager you selected in the process will receive notification via email.

Processing Developmental Leave and/or Funding Requests as a Manager

When an application for developmental leave and/or funding request has been submitted for your approval, you will receive an email (as above). Please click on the link in the email which will open a list of all unprocessed applications for your review.

To review an application, click on the edit button beside each request, review the details entered by the applicant and either approve or reject the applications. Applications for funding and/or study leave can only be considered from staff who have completed all of their mandatory education and training. If an application is approved, an automated email will be sent to notify the next person in the process (Director selected). If an application is rejected, an email will be sent to the applicant informing them that their application has not been successful.

Core

If the applicant is successful in their request for study leave, Managers must assign study leave hours for the applicant through Core. This process is outlined on the CLD Department page of TUH Intranet. (Figure 7)

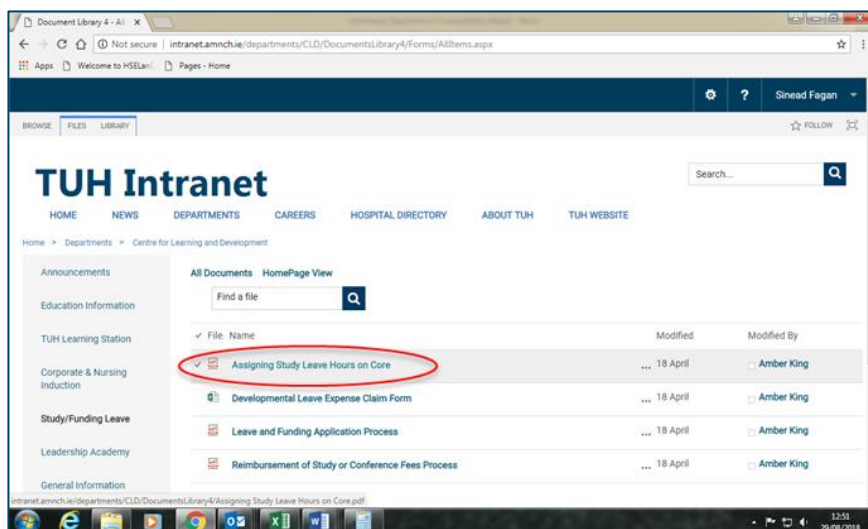

Figure 7

Applying for Reimbursement of Learning & Development Funding

1. To apply for reimbursement of L&D funding, go to TUH Intranet page. → Popular Links → Staff Forms (Figure 1) → 'S' Study Reimbursement Claim Form (Figure 2 & 3) **or** click on the link below:

<http://intranet.amnch.ie/tuheforms/eforms/Pages/StudyReimbursement.aspx>

Figure 6

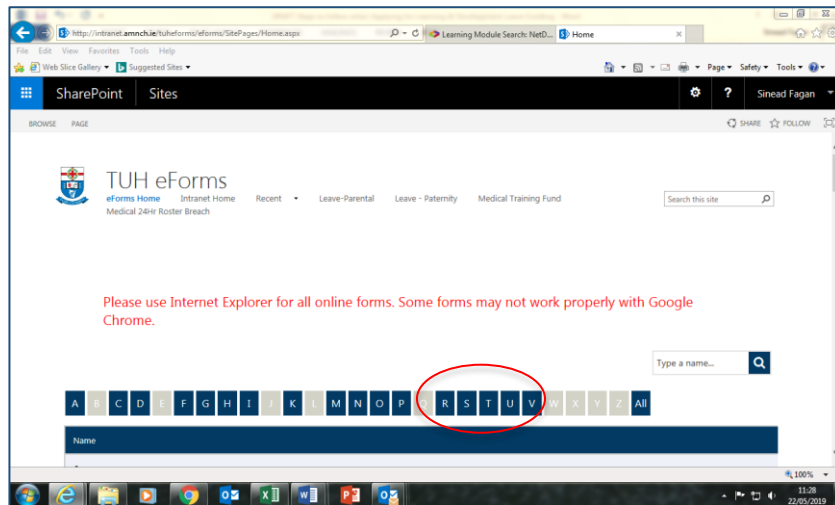

Figure 7

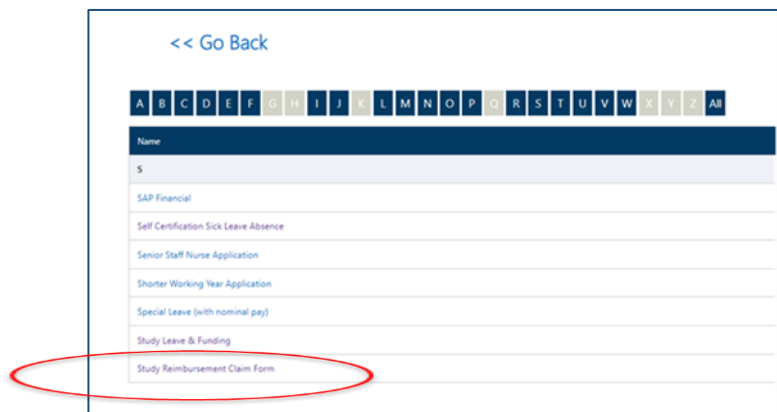

Figure 3

Click on the 'Click here to submit a Study Reimbursement Form' link (circled below - Figure 4).

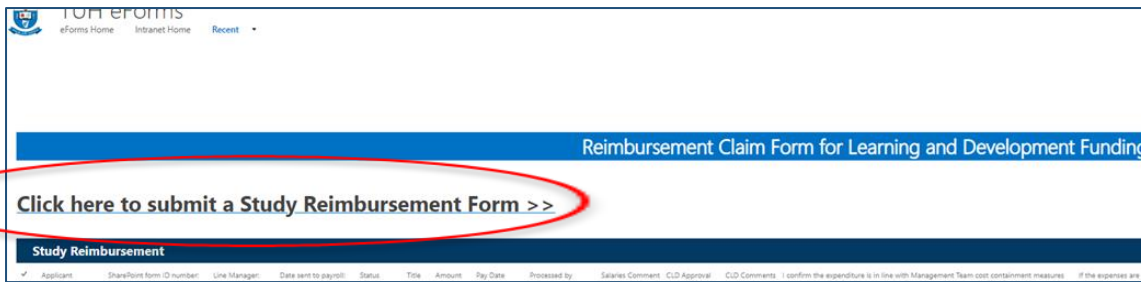

Figure 8

2. Please enter all the required information (Figure 5). NB. Please include the corresponding Study Leave/Funding application ID and **you must attach evidence of payment and certificate of completion/attendance** in section 2. If you do not attach both evidence of payment and certificate of completion/attendance it will not be possible to process your application. When complete click 'submit'.

The screenshot shows the 'Funding Reimbursement Claim Form' for Tallaght University Hospital. The header includes the TUH logo and the text 'Tallaght University Hospital Ospidéal Ollscoile Thamlachta An Academic Partner of Trinity College Dublin'. The form is divided into two main sections:

- Section 1 - Personal information:** This section contains several input fields: 'Organisation' (a dropdown menu with 'Please select a value...'), 'Applicant Name: *', 'Personnel Number *', 'Name of Line Manager: *', 'Date of submission *' (with a calendar icon showing '11/09/2023'), and 'Electronic Study Leave/Funding Application Number: *'. A small note at the bottom of this section says 'ID is available under either 'My current forms' or 'My Completed forms' here: CLICK HERE'.
- Section 2 - Details of Claim:** This section contains a 'Please note' paragraph: 'Please note: the corresponding receipt of payment for 'Tuition fees' or 'Course/Conference Fees' and 'Certificate of Successful Completion / Attendance' must be attached to avoid delays in processing your claim for reimbursement.' Below this is another paragraph: 'For claims for Travel/Accommodation/Subsistence please refer to 'Foreign & Domestic Travel & Subsistence for Staff of Tallaght University Hospital Policy - Document Number: ADM-POL-31'. Complete a separate Travel Claim Form and submit to the relevant Line Manager.' There are two input fields: 'Description of title of course/conference' and 'Cost of course/conference'. Below these are two sections for attachments: 'Receipt Attached' with a '+ Add Attachment' button, and 'Certificate of Successful Completion / Attendance Attached' with a '+ Add Attachment' button. A final 'Please note' paragraph states: 'Please note: These costs must be approved by the relevant Director in advance of application. NB. TUH will sponsor the approved percentage of Tuition Fees, students are liable to pay additional fees such as Registration fees / Student Levies. Please refer to: Learning and Development Funding Standard Operating Procedure - Document Number: HR-PRO-20 and Repayment of Learning and Development Funding Procedure - Document Number: HR-PRO-22 both available on Q-Pulse.' At the bottom of the form are 'Submit' and 'Cancel' buttons.

Figure 5

3. Once submitted your application will be forwarded to the following for approval.
 1. Line Manager
 2. Learning & Development Team
 3. Payroll Dept

You should receive an automated email from SharePoint to confirm your claim has been submitted.

Please note if there are errors made on the application it cannot be edited and a new application will have to be submitted. This applies to all users.

Processing L&D Reimbursement Claims as a Manager

When a reimbursement claim has been submitted for your approval, you will receive an automated email from SharePoint. Please click on the link in the email which will open a list of all unprocessed applications for your review.

To review an application, click on the edit button beside each request, review the details entered by the applicant and either approve or reject the claim.

Issues & Support

For all issues and queries regarding the process, please contact the Centre for Learning & Development:

Disclaimer

Disclaimer for the Provision of Education/Training by the Centre for Learning & Development at Tallaght University Hospital

Attendance and/ or participation in the programmes which are provided by, or on behalf of, Centre for Learning & Development (**CLD**) at Tallaght University Hospital (**TUH**) is subject to the following terms and conditions:

1. Programmes are developed solely for the purposes of TUH requirements in the interests of protecting and improving the health of the public in respect of the knowledge and training of nurses, midwives and other employees of a healthcare provider who are engaged in a healthcare environment (whether public and/or private).
2. In light of these purposes, programmes are intended to provide educational information to aid and augment an understanding of the theoretical subject matter presented and/ or the practical application of certain skills and competencies.
3. It is the individual responsibility of each practitioner to assess and maintain his/ her own competence in respect of any situation and to assess the limitations of his/ her competence. Programmes are not intended to affect, interfere with or limit a person's individual responsibility to practice safely and effectively within his/ her scope of practice and in accordance with any local policies, guidelines and/ or protocols which may exist.
4. The TUH shall have no liability, whether in (a) contract, (b) tort, (c) statute or (d) otherwise, for any injury, loss, damage or claim arising out of, or in connection with, any person's attendance and/ or participation in programmes including but not limited to the subject matter thereof and/ or arising out of the use of any handbooks, guidance notes, other documentation, oral presentations/ demonstrations, web-based learning tools or any other instruction or materials provided as part of courses (the "**Materials**"), howsoever arising.
5. Any Materials provided by TUH as part of programme of education/training are provided for information and guidance purposes only. TUH makes no representation assurance, warranty or guarantee of any kind whatsoever in relation to the Materials. The provision of the Materials is without prejudice to the obligation of persons attending and/ or participating in programmes to continually develop themselves as professionals, where applicable.
6. If and to the extent that any provision in this Disclaimer is held to be unenforceable, illegal or void in whole or in part, it will to that extent be deemed not to form part of this Disclaimer and the enforceability, legality and validity of the remainder of this Disclaimer will not be affected.
7. Nothing in this Disclaimer shall limit or exclude the liability of the TUH in a manner which is prohibited by law.
8. This Disclaimer shall be governed by and interpreted in accordance with Irish Law. These terms and conditions are without prejudice to the operation of the Clinical Indemnity Scheme and the professional responsibilities of any persons attending and/ or participating in this programme.

Monthly	15.00-16.00	One hour	Ruttle Tutorial Room	TUH Learning Station via: www.HSeLanD.ie

Critical Incident Stress Management – CISM Two Day Course - Classroom

Aim & Learning Outcomes:	This programme will enable participants to understand a wide range of crisis intervention services. Fundamentals of Critical Incident Stress Management (CISM) will be outlined, and participants will leave with the knowledge and tools to provide several group crisis interventions including the Critical Incident Stress Debriefing (CISD). Crisis Intervention is NOT psychotherapy; rather, it is a specialised acute emergency mental health intervention which requires specialised training. As physical first aid is to surgery, crisis intervention is to psychotherapy. Thus, crisis intervention is sometimes called “emotional first aid.”
Content:	Relevant research findings - Relevant recommendations for practice. Incident assessment - Strategic intervention planning - The "Resistance, resilience, recovery" continuum - Large group crisis interventions - Small group crisis interventions - Adverse outcome associated with crisis intervention & how to reduce the risks - Critical Incident Stress Debriefing (CISD)
Target Audience:	TUH staff who may be involved in providing group crisis interventions.
Programme Requirements:	N/A
Assessment:	N/A
Level of Learning:	N/A
Is the Programme Mandatory for Tallaght University Hospital Staff:	No

National SACT Competency Programme for Nurses Working in Cancer Care – Classroom or Virtual – 2 Day Programme

<p>Aim & Learning Outcomes:</p>	<p>The aim of the 'National Systemic Anti-Cancer Therapy (SACT) Competency Programme for Nurses Working in Cancer Care' is to standardise the education and assessment of SACT administration and patient care, ensuring consistently safe and high-quality SACT practice. Upon completion of the programme, registered SACT administrators are then free to move between employers within Ireland and the UK without the need for retraining. SACT nurses who have previously achieved competence against all learning outcomes of the Passport should complete an annual Re-accreditation Competency Certificate and managers should verify that this has been undertaken and achieved. SACT nurses who have previously achieved competence against all learning outcomes of the Passport and are returning to SACT practice after a break for a period of six months or more should revise, or re-complete the Passport, along with the annual Re-accreditation Competency Certificate to ensure ongoing currency of their competence, reassuring managers that the nurses SACT competence is current. Refer to the UKONS SACT Competency Passport Learning Outcomes Framework (2019) for the learning outcomes for each of the six subjects included in the passport:</p> <p><i>Subject 1: Foundation Skills</i> <i>Subject 2: Administering Oral SACT</i> <i>Subject 3: Administering Intramuscular (IM) or Subcutaneous (SC) SACT</i> <i>Subject 4: Administration of Intravenous (IV) SACT</i> <i>Subject 5: Pre-Treatment Consultation (All Routes)</i> <i>Subject 6: Pre-Treatment Consultation for Oral SACT</i></p>
<p>Content:</p>	<p>Programme structure is broken into 2 components:</p> <ol style="list-style-type: none"> 2 Day Training Programme <p>The programme is comprised of a two day (16 hrs) theoretical programme, delivered virtually, in the classroom or a combination of both. Day 1 and 2 will be a week apart to allow participants to consolidate learning. It will be supplemented by work based learning, reflection on practice and additional self-directed learning. Participants from Type 3 or Type 4 SACT hospitals/services will be offered a 1 day clinical placement in the ambulatory day unit of the programme provider.</p>
<p>Target Audience:</p>	<p>It is envisaged that delivery of the National SACT Competency Programme for Nurses Working in Cancer Care will operate through the co-ordinated input from the NCCP, NMPDU's, CNME's, CNE's and CLD's nationally. This will allow equal opportunity and participation from cancer nurses in all 25 public hospitals currently providing systemic therapy services to adult cancer patients. The aim is to standardise the assessment of SACT administration and patient care, and in doing so ensure consistently safe and high-quality SACT practice.</p>
<p>Programme Requirements:</p>	<ul style="list-style-type: none"> Nurses must be registered with NMBI and be on the live register for 12 months or more Nurses must be working in cancer care for a minimum of 3 months Nurses must complete the application form online through HSeLanD following discussion with the relevant manager with commitment to full attendance. The manager has full authority with regards to candidate selection as they are best positioned to ensure that a) the staff nurse has sufficient pre-requisite

	<p>knowledge and skills to undertake the programme, and b) that staffing levels, supports and clinical assessors etc. are available.</p> <ul style="list-style-type: none"> • Nurses must have explored NCCP guidance documents and resources, local PPPG's as well as other recommended reading outlined in Appendix 1. • Nurses must have achieved competence in intravenous (IV) administration of medicines by successfully completing an IV Study Day at local level • Nurses must have gained requisite competence related to medicines management, including calculations for medicine administration in accordance with local policy and have successfully completed Medicines Management on HSeLanD • Nurses must have achieved competence in the care and management of central venous access devices (CVAD's) by successfully completing relevant training and certification at local level • Nurses must have achieved competence in peripheral venous cannulation and venepuncture by successfully completing relevant training and certification at local level • Nurses must have gained requisite competence in the management of anaphylaxis by successfully completing the National Anaphylaxis Education Programme for Healthcare Professionals on HSeLanD • Nurses should have successfully completed Chemical Safety in the Workplace (Introduction) on HSeLanD • Nurses should have successfully completed the National Intrathecal Chemotherapy e-learning tool on HSeLanD
Assessment:	<p>Step 1: Complete the Theoretical Sections Step 2: Complete the Clinical Practice Assessment Sections Step 3: Complete the UKONS SACT Safe Handling and Administration Certificate and then annual completion of the Re-accreditation Competency Certificate and submission to HSeLanD to ensure the nurse remains on the SACT register.</p>

Wound Management - Topical Negative Pressure Wound Therapy - Classroom

Aim & Learning Outcomes:	<p>To understand the theory behind Topical Negative Therapy and its application.</p> <p>Negative-pressure wound therapy (NPWT) is a therapeutic technique using a vacuum dressing to promote healing in acute or chronic wound. The therapy involves the controlled application of sub-atmospheric pressure to the local wound environment, using a sealed wound dressing connected to a vacuum pump.</p> <p>This negative pressure helps draw wound edges together, remove wound fluids and infectious materials and promote granulation tissue formation</p> <ul style="list-style-type: none"> • Promote wound healing • Provide a moist wound healing environment • Draw wound edges together • Remove fluid and infectious materials • Reduce wound odour • Reduce the need for daily dressing changes It is indicated for any wounds healing by second intention
Content:	<ul style="list-style-type: none"> • The workshop consists of the theory and practical application of the dressing
Target Audience:	<ul style="list-style-type: none"> • Nursing and Medical Staff

TUH Leadership Academy

Modern health care delivery is constantly evolving. Effective leadership is key in supporting people and teams to respond to changing needs and ensure the delivery of high quality, evidence based care and services to our patients. The TUH Leadership Academy offers of a number of programmes to support leaders and people managers in their roles in the Hospital:

1. An Introduction to Leadership and People Management

The aim of this programme is to assist and support individuals across all grade categories and disciplines that are taking up managerial roles in Tallaght University Hospital for the first time.

2. Advanced Leadership Development Programme

The aim of this 3 day education programme is to further enhance the leadership skills of experienced people managers in the Hospital. Participants must be at Grade V, VI or VII, CNM1, 2 or 3 or equivalent grade. Participants must have undertaken either the TUH 'Introduction to the Roles and Responsibilities of People Managers' programme or the TUH 'Introduction to Leadership and People Management' programme previously.

3. Meath Foundation/TUH Fellowships: Master's Degree Programmes

The Meath Foundation and TUH MSc fellowships provide an opportunity for Tallaght University Hospital staff to enable change within the hospital, to empower staff and develop their leadership potential, to improve efficiency and to contribute to the development of Tallaght University Hospital as a provider of best quality healthcare services.

The Masters programmes below are tailored specifically for healthcare. Although grounded in up-to-date academic research, courses are flexible and practical. Students learn to analyse complex organisational and managerial problems and deploy a broad range of management tools to identify and assess solutions. The practical application of learning is emphasised.

4. TUH SOAR Coaching Programme

Coaching is a one-to-one, private, confidential and practical approach to personal and professional development. It is available to all staff on request.

5. TUH ATHENA Mentoring Programme

The aim of this to introduce participants to the mentoring process and equip mentors with the knowledge and skill to support the development of a working mentoring relationship.

Healthcare Research, Education, Quality Improvement
& Arts in Health at Tallaght University Hospital

TUH ATHENA Mentoring Programme

TUH, supported by the Meath Foundation, offers Mentoring to all TUH staff.

What is Mentoring?

Mentoring is a one-to-one relationship of mutual respect, where a Mentor is usually a more senior person, or someone who has been in an organisation longer. The Mentor can give advice, support and wise counsel to the Mentee. The Mentor will help the Mentee develop and grow, both in their role and in the organisation. A Mentor can help develop the Mentee's leadership potential, improve communication skills and conflict management. Mentoring means being a role model and sharing knowledge and experience. Mentoring is also about learning from the Mentee.

How Mentoring Works

If you are interested in having a Mentor, you can select one yourself via the ATHENA Mentoring database on SharePoint.

You can also ask your Line Manager or a colleague to recommend one for you. You then apply directly to the Mentor. If they are available you arrange to meet and discuss entering into a Mentoring relationship.

Mentoring usually lasts six months, however, many Mentoring relationships continue well beyond that. You usually meet with your Mentor once a month. Each session will last around an hour.

A Manager can also refer someone for Mentoring if both the Manager and staff member feel that it will be of benefit.

What can you gain from having a Mentor?

- Advice and support
- A relationship of mutual trust
- The shared experience of someone more senior or with more knowledge of the organisation
- Insight into potential pitfalls
- Confidence and empowerment

What can you gain from being a Mentor?

- The satisfaction of seeing someone develop their potential
- Succession planning
- An insight into the Mentee's area of work
- Enhances your CV for furthering your own career

Where can I get more information?

For further information, please refer to the Leadership Academy section on the CLD's intranet site.

Confidential e-mail: mentoringprogramme@tuh.ie

Staff can apply for Mentoring using the SharePoint application form.

Occupational Health and Safety Training Catalogue

- The Safety, Health and Welfare at Work Act 2005 requires Tallaght University Hospital as an employer, to provide information, instruction, training and supervision for all employees as necessary.
- Managers are required to ensure employees are aware of training requirements and facilitate employees to complete their training in a safe manner. Training requirement/needs are established following risk assessment and training needs analysis.
- Employees have a responsibility to attend training and undergo any assessment as necessary.
- Employees are also responsible for notifying the employer or the employer's nominated registered practitioner if they become aware that they are suffering from any disease or physical or mental impairment which affects their performance of work activities that could give rise to risks to the safety, health and welfare of persons at work. The duty is on the employee to protect themselves and others.
- Training is available via HSeLanD TUH Learning Station or contact health.safety@tuh.ie. Please refer to specific training pages on OH&S intranet page as required (Health and Safety Training library).
